

Dear Visa Officer, High Commission of Canada,

I am writing to apply for a visa to pursue my higher studies in Canada. My name is Bipasha Roy and I am 21 years old. I am from India, and I have had a strong desire to study in Canada.

I recently completed my studies in the Science stream from RKVM, having secured excellent academic results throughout the duration of the course. As my future pathway and academic journey, I got admission in the University of Toronto where I am hoping to complete my program in Computer Science. My primary goal is to take up software engineering as a profession after graduating from the University.

To ensure my timely payment of tuition fees and exam fees, I have already paid a sum of 50000 CAD for my first year tuition fees and 10000 CAD for my GIC. My IELTS scores are also commendable with a score of 10/10 in reading, writing, speaking and listening.

I hope that you find my information satisfactory and grant me the visa to pursue my higher studies in Canada. I also promise to abide by all the laws and regulations of your country and act as a responsible citizen.

Thank you for your time and consideration.

Sincerely,  
Bipasha Roy
